

1. DECLARATION OF NON-DANGEROUS SPORT EQUIPMENT

Ecoaims PP320EXP, PP520EXP, PP700EXP, and P3EXP laser equipment are optical sport shooting systems for training and competition purpose. **THEY ARE NOT FIREARMS NOR ANYTHING WHICH CAN BE USED AS A FIREARM.**

These devices do not house any such components as a barrel, chamber or bolt which are needed in a real firearm. They cannot be used to shoot real bullets, real pellets, nor any kind of projectiles.

These devices have a built-in laser module, which emits a laser beam after the trigger has been pulled. A special target determines a hit based on the detected laser pulse. The necessary software runs on a circuit board within the laser device.

These devices use a Laser Class 1 laser beam, which fulfils the recommendations and requirements of UIPM and international Laser Class 1 requirements according to the standard EN 60825-1:2014 (IEC 60825-1:2014).

These devices are operated with 2 x CR2032 regular button batteries. When transported in their case, the equipment is protected from unintentional activation.

The country of origin of these devices is Finland. These devices are manufactured by Eko-Aims Oy, address Laavupolku 12, 80400 Ylämylly, Finland.

A handwritten signature in black ink, appearing to read "Jeremy Johnson".
